Standard Capital Markets Limited Announces Incorporation of Wholly-Owned Subsidiary in Dubai DIFC to Explore Middle East and African Markets

Standard Capital Markets Limited (SCML), a leading player in the Indian financial services sector, has announced to incorporate a wholly-owned subsidiary in the Dubai International Financial Centre (DIFC). This strategic move aims to strengthen the company's foothold in the Middle East and African markets, with a particular focus on expanding its offerings in trade finance, invoice discounting and project finance.

The establishment of the Dubai-based subsidiary is a part of SCML's ongoing efforts to diversify its services and expand its presence beyond the Indian market. By entering the Middle East and African regions, the company aims to tap into the growing demand for trade finance solutions, which are essential for businesses seeking to enhance cash flow, optimize working capital, and mitigate risks in international trade.

The subsidiary, subject to the approval of the Reserve Bank of India (RBI), will operate in full compliance with the legal and regulatory frameworks set forth by the DIFC and the Indian government. The expansion into these high-potential regions is expected to enable SCML to offer more comprehensive and innovative financial solutions to clients involved in cross-border trade.

"We are excited to announce this important milestone for Standard Capital Markets Limited. This move marks a significant step towards strengthening our global operations and creating value for our clients in the Middle East and Africa," said Management of Standard Capital Markets Limited. "We believe that the expanding trade corridors between India, the Middle East, and Africa present tremendous opportunities, and we are confident that our trade finance and invoice discounting services will play a vital role in supporting businesses in these regions."

The Dubai subsidiary will provide a range of services, including:

- Trade finance solutions to facilitate international trade and mitigate risk.
- Invoice discounting services to help businesses access working capital quickly and efficiently.
- Tailored financial products to meet the needs of importers, exporters, and other businesses involved in cross-border trade.

The company will continue to operate in full compliance with all relevant regulations and is committed to driving growth in the international markets it serves.

About Standard Capital Markets Limited

Standard Capital Markets Limited is a leading financial services company in India, providing a wide range of services in investment banking, securities trading, wealth management, and corporate finance. With a strong focus on innovation, customer satisfaction, and regulatory compliance, SCML has built a robust reputation in the financial industry.
